EMT Megatherm Private Limited was established in the year 1989. This is a leading manufacturer & supplier of Induction Melting & Holding Furnace, Induction Mass Heating Equipment, Induction Hardening Equipment, Electric Furnaces, Casting Machines, Power Transformers, Ladle Furnace Systems and Power Supply System. The business was looking to start off on the right platform and, following lengthy due diligence, chose SAP Business One to run its operations, provide real-time visibility into inventory and inform more accurate forecasting. Customisable, modular and delivered via on premises, SAP Business One enables business processes to be revisited and fine-tuned based on seasonal insights, with continuous improvement having become the defining difference between the company and its competitors.

Before: Challenges and Opportunities

- High worked pressure with unmanaged existing systems.
- Highly seasonal business with sharp spikes in demand.
- The System was quite slow.

Why SAP and Partner

- Manage the production process smoothly.
- Understood the challenges and how to deliver the vision
- SAP is modular, customizable and provides quality and timely insight into the business

After: Value-Driven Results

- Controlled full manufacturing process
- Smoothly going on packaging process
- Container handling is perfect.
- Real-Time process through all branches.
